**EXAMINER'S AMENDMENT / NOTICE OF ALLOWANCE**

***Remarks***

Receipt is acknowledged of an amendment on 1/16/2004, which has been placed in the file of record, and to which this action is a reply.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Anthony P. Curtis on 3/4/2004.

The application has been amended as follows:

**IN THE CLAIMS:**

**Claim 1** is replaced with the following:

A controller which enables wireless communication between an operation member and a host, said operating member comprising:

a transmission mechanism;

an input mechanism;

a display member that displays an input portion of said input mechanism, the input portion including input items, display of one of the input portion and at least one input item being changeable, said display member being overlaid on said input mechanism; and

a control section that generates a transmission signal corresponding to said display of said display member when said input mechanism is operated;

wherein said input mechanism is a planar input device to which a coordinate position can be input.

**Claim 2** is cancelled.

**Claim 3** is amended to depend from claim 1 instead of claim 2.

**Claim 13** is amended to depend from claim 1 instead of claim 2.

**Claim 20** is replaced with the following:

An operation member in wireless communication with a host, said operation member comprising:

A case;

a transmission mechanism disposed in the case, the transmission mechanism transmitting a transmission signal to the host;

a planar input mechanism to which a coordinate position can be input, the planar input mechanism disposed in the case;

a display member disposed in the case, the display member overlaid on the input mechanism when in an operational position; and

a control section to generate the transmission signal corresponding to a contacted portion of said display panel in the operational position.

### ***Reasons for Allowance***

Claims 1, 3, 4, 6-28, 30, 35-38 are allowed.

The following is an examiner's statement of reasons for allowance: The Examiner observes that the claims, after Examiner's Amendment, overcome three pieces of prior art that have significant similarity to the Invention.

In particular, Kurita et al. (US 5,353,016) teaches a controller with changeable operating cards that are in an underlying relationship to a touch screen, such that input takes place via a coordinate based system in the touch screen. The amended claims of the Instant Invention overcome this by claiming changeable display members (such as cards) that are in an overlying relationship.

Madill (Des. 363,932) and Darbee (US 5,422,783) teach a system where there is a changeable panel that is in an overlying relationship in a remote controller, but wherein buttons are employed which extend through holes in the changeable panels. The amended claims of the Instant Invention overcome this by reciting an input means that is coordinate based, which means that it can receive input at any location on the input area (i.e. is not based on buttons, which can receive input only at particular locations).

Art Unit: 2876

Canova, Jr. et al. (US 6,388,877) teaches a palm type device that receives input from a touch screen that changes and can send a signal, acting as a remote controller, to a television. Canova lacks in that there is no overlying changeable display member.

Thus it should be every feature recited in the claims should be considered critical in the Instant Invention, to distinguish it from various similar prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
